

What would you design for your city?

Brunel is a world famous engineer who created the Clifton Suspension Bridge, the SS Great Britain, the Great Western Railway, Paddington Station and the Royal Albert Bridge to name but a few.

He transformed many parts of the UK with these bridges, ships and railways. If he was around today what do you think he would create in your city? As he's not here. we are turning the question to you:

What would you design for your city?

Here are more example of Brunel's achievements that you can look up for inspiration!

Mortar Boats
Mast rigging
Telescope mounts
Gasometers
Launch ways
Water measurer
Hospitals wash basins
Invalid baths
Pile drivers

Screw clips for pipes
Coal chutes
Atlantic cable laying
Eastern Bengal railway rails
Punching machine
Railway carriage wheels
Swindon town hall
Engine turn table
Portishead pier
12 tonne crane
Bath station lamp posts
